LT-PL/122 „THE PROFESSIONAL EDUCATION IN THE TRANSBORDER REGION THE BASE OF THE DEVELOPMENT OF THE ENTERPRISE”

On September 12th, 2011 in Wilkasy (warmińsko-mazurskie region, PL) took place the second conference within the project “*The professional education in the transborder region the base of the development of the enterprise*”, implemented by District Authority for the Management of Schools and Educational Institution from Giżycko (warmińsko-mazurskie region) in cooperation with Alytus vocational training centre (Alytus County).

In the conference, which was carried out under the title “*The cooperation of the entrepreneurs and vocational schools as an opportunity for increase of competitiveness of the firms and quality of vocational education*”, participated the representatives of both project’s partners, Giżycko District Administration, Giżycko City Administration, Alytus City Administration, vocational schools and entrepreneurs from both sides of the border.

Project's partners welcomed all the conference's participants and reminded the main project's objectives. The representatives of Giżycko District Administration and Alytus City Administration presented the economical situation of their self-governments, paying the special attention on business environment. Moreover, the representative of Vilnius Pedagogical University made a presentation about the influence of the cooperation between vocational schools and entrepreneurs on the quality of education and competitiveness of the firms.

An important part of the conference was the performance of the entrepreneurs from Giżycko and Alytus, presenting their companies and inviting to cooperation. The following branches were presented: hotel and gastronomical services; building industry; trade, electronics etc.
